

Closure Document

Arqin Postcard Module (FotoXS)

The present document certifies the culmination of the Project named as: **Arqin Postcard Module**, which has been developed for Tierra Network, covering the activities specified in the planning, the delivery and approval of the offered products in the project scope and its deployment, at December 4th of the current year. Delivered products are:

1. Module access without login.
2. Inclusion of the Arqin's banner in the product's home.
3. Postcard's home for the new partner.
4. Development of the four steps for the construction of the postcard.
5. Prices configuration
6. Formats and themes incorporation (test material)
